

RECEIVED

MAR 14 2011

To Whom It May Concern:

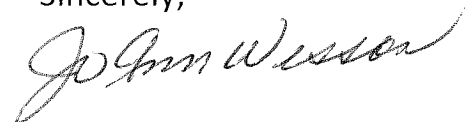

I have enclosed pictures of my students with the cameras I bought with the grant money received from the IRTA. The students took the cameras home to take pictures of important things in their lives. They then used these pictures to focus their writing on things they knew about. It really helped them in their ideas because they wrote about reality and not some far out fantasy that they saw on TV or in some video game.

I have also enclosed receipts from the cameras that were bought. You will find a letter from Mr. Ron Robinson. Ron is our Technologist. He bought some of the cameras, but he did not save the receipts. I hope the letter he sent for his reimbursement will be adequate. There is an amount of \$25.16 left from the grant. This will be used to buy batteries and additional memory cards for the cameras.

I am very grateful for the opportunity to teach my students that they have important things in their lives they can write about. They don't always have to write fantasies.

Once again, I appreciate the grant money and rest assured that it will enable students in years to come to make discoveries about the world around them.

Sincerely,

Jo Ann Wesson
